

PEOPLE'S VOICE.

LYMAN NAUGLE, Editor.

WELLINGTON, KANSAS.

KANSAS STATE NEWS.

People's Party Convention.

A delegate convention of the people's party of Kansas, is called to meet in the city of Wichita, on Wednesday, June 15, 1892, at 10 o'clock a. m., to elect twelve delegates at large to the national convention to be held in the city of Omaha, Neb., on July 4, 1892, and also to nominate ten electors and candidates for governor, lieutenant-governor, secretary of state, attorney-general, auditor of state, state treasurer and superintendent of public instruction, and one congressman-at-large. The basis of representation is one delegate for every 500 votes or major fraction cast for the combined vote of J. N. Ives for attorney-general, and J. F. Willis for governor, in 1890. The convention will consist of 502 delegates. It is recommended that county conventions be held on Saturday, June 11, 1892, to elect delegates.

Sugar Experiments.

Dr. Wiley, who has charge of the government sugar experiments, has addressed a letter to congress calling special attention to the sugar experiments at the government station in Kansas and asking for a liberal appropriation for continuing the work. He says the station at Medicine Lodge is established for a continuation of the experiments and the development of the sorghum plant and to illustrate a new method of manufacture which has already given indications of success. He says the soil and climate of that section, and extending into Oklahoma, Indian territory, Arkansas, Texas, etc., is well adapted to the successful growth of sorghum and with proper management will develop a profitable industry. He asks for an additional appropriation of \$20,000.

The "Kansas Conflict."

Gov. Robinson's new book, "The Kansas Conflict," has made its appearance and is well worthy of perusal by all Kansans, especially those who were present or are familiar with the stirring times that characterized the early settlement of Kansas. The work gives a complete history of the struggle between freedom and slavery in the territory, and introduces evidence to show that some of the actors on the stage of that drama were not the heroes that some local historians had painted them. The book is written in the forcible style that is known to characterize the writings and speeches of the war governor of Kansas, and will be found to be extremely interesting to those who may wish to read up on early Kansas history.

Searly Fatal Fires.

There were two fires at Atchison the other morning which came near resulting in the loss of life. The house of a colored man named Johnson burned. When discovered the house was in full blaze, and Johnson and his family were yet asleep in it. They awoke barely in time to save themselves. The other house was situated on the "island," a strip of land extending into the Missouri river just outside the city limits, and occupied by Asa Boyd and family, colored. The inmates escaped in their night clothes.

Date Changed.

At the request of the convention recently held at Salina, the Democratic state central committee met and changed the place of meeting of the Democratic state convention to nominate a state ticket from Pittsburg to Topeka. The convention will, therefore, meet at Topeka July 6. The apportionment of delegates is the same as the Salina convention, viz, one delegate for each 500 Democratic votes cast at the last election and one delegate at large for each county.

Mrs. Halderman Gets a Divorce.

In the district court at Leavenworth the other day a divorce was granted Mrs. Anna B. Halderman from her husband, John A. Halderman, ex-United States minister to Siam. Mrs. Halderman is the daughter of the late Gen. Dorris, of St. Louis, and is reported to be worth \$500,000 in her own right, much of which is real estate at St. Louis, embracing some of the best business blocks in that city. They have three children, daughters, all about grown.

A Brutal Husband.

Robert Mills, a laborer on the sand dredges at Kansas City, Kan., brained his wife with a hatchet the other day and then attempted to cut his own throat. The couple had separated and were dividing their household effects when the tragedy took place. The woman's injuries were thought to be fatal. Mills was promptly jailed.

Minor State News.

The Democratic delegates to the national convention have organized with George W. Glick as chairman, B. J. Sheridan, secretary, and Thomas G. Fitch, treasurer. Committee on railroad transportation: William C. Perry, W. Sapp, Thomas W. Morgan and W. H. L. Pepperell.

John Edwards, alias Anderson, was captured the other morning while in the act of robbing the residence of Mr. Ettenson, a Leavenworth merchant. When arraigned for trial he pleaded guilty to the charge of burglary and larceny. He is a hard criminal and will no doubt serve the state for some time.

The second district republican convention at Fort Scott elected Eugene F. Ware, of Fort Scott, and Col. O. E. Leonard, of Douglas county, delegates to the Minneapolis convention, with John McCaslin, of Anderson, and E. C. Owens, of Johnson, alternates. B. S. Smith, colored, of Wyandotte county, was chosen for elector for the district.

A physician has just discovered that a dislocation of the neck is not fatal. This will bring very little consolation to the man about to be hanged.—St. Joseph News.

Fortress has often turned on its heel before reaching a man, but in the case of the race course better it generally turns on a horse's heel.—Philadelphia Times.

FARMERS' ALLIANCE.

ALLIANCE NOTES.

—By all means stay out of the old party primaries. If you vote in the primaries it ties your hands and obligates you to support the nominee regardless of his principles.

—If we could take each Kansas farmer through the sweaters' dens of this city, that state would cast 100,000 majority for the people's party. Let the middle class people of the United States not only read, but see with their own eyes the horror of these places, and there would be a political cyclone that would shake the world.—Cincinnati Herald.

—In the language of John A. Logan, we say that the "time has come when cowards should hide, and honest men should come to the front and tell you plain, honest truths." Indeed, if there ever was a time when it required nerve, honest and brave manhood, it is now! Talk reform! Vote reform! Never pause to reckon the cost!—Southern Mercury.

—Any announcement we make for

GET DOWN TO WORK.

If We Fall Together Victory is Within Our Grasp.

The possibilities of this present campaign are but faintly realized by far too many of our people. From this position we look over the whole field and see so much to encourage that we wonder that anyone can be apathetic. The people are restless and dissatisfied. They are casting about for relief. They grasp at the best thing they can see. The old parties are alert, and are far more concerned to keep down the new party than to defeat each other. If they keep us down they can divide the spoils. Their differences are so small they can be settled at any time in presence of great danger.

Our first objective point is to elect a president, or failing in that to determine who shall be elected. It requires 222 votes in the electoral college to secure the president. This ball is moving so rapidly it is hard to tell when it will stop. State after state is developing a most extraordinary enthusiasm. The whole south is arising from the supineness of party trullism, and with the energy of despair they are breaking the

LET FUSION ALONE.

Fusion is a Confession That Office is Esteemed More Highly Than Principle.

I see a great deal in the papers about fusion with old parties on nominations for different officers in different states. I do not assert that this idea of fusion seems to be at all popular, but its discussion tends to weaken the position of the new movement.

This people's movement has been going on ever since Peter Cooper's time in 1876, in various forms, and we have experimented with fusion until we ought to be satisfied that we can never win by that policy. Ninety-nine out of every hundred officers elected by fusion with either of the old parties, as soon as elected have gone into their old party caucuses and worked to strengthen that party. This has deferred the reform movement until the people have become thoroughly disgusted.

Many good and honest voters in both the old parties, who sympathize with us, have refused to act with us on account of this system of fusion. Now the time has come when the representatives of thirteen of the great industrial organizations of this nation have come together in national conference and

A REMARKABLE LETTER.

A Prominent Professional Man's Extraordinary Statement.

(N. Y. Sun.)

To the Editor: Six—As my name and face have appeared in your paper and the public prints lately, and as many of my professional brethren are wondering at it, I feel it only just that I should make an explanation. The statement published over my name was made ten years ago, after long and mature investigation, and I have never changed my mind as to the facts then stated. At that time I said, as a physician, that I believed Warner's Safe Cure was the best of all known preparations for the troubles it was advocated to cure, and I say so still. I know it is considered the proper thing for the medical profession to decry proprietary and other advertised articles; but why should they do so? As the late Dr. J. G. Holland, writing over his own name in Scribner's Monthly, said:

"It is a fact that many of the best proprietary medicines of the day are more successful than many physicians, and most of them were first discovered or used in actual medical practice; when, however, any person knowing their virtues and forecasting their popularity secures and advertises them, in the opinion of the bigoted all virtuous went out of them."

Dr. Holland was an educated physician, an unprejudiced observer, and he spoke from a broad and unusual experience. Proprietary medicines should not be decry. The evidences of their value are overwhelming. I have seen patients recover from gravel, inflammation of the bladder and Bright's disease after using Warner's Safe Cure, even when all other treatment had failed.

I make this frank and outspoken statement in the interests of humanity and because I know it to be true. I trust for the same reason you will give it to the public. Respectfully,
R. A. GUNN.
No. 134 West Forty-Seventh street, New York, March 1.

He (bitterly)—"You have no heart." She (pointedly)—"No, and I don't want one."—Life.

Of course when a man marries his flame he expects she will build the kitchen fire.

The promising young man is always in debt.—Galveston News.

Masked Venom.
Does anybody imagine that he or she can breathe air impregnated with malaria for any length of time and yet go scatheless? If any such there be let them incur the risk and then doubt. The poison in disguise as surely enters the system as a dose of prussic acid swallowed with suicidal intent. Hostetter's Stomach Bitters is the sole reliable defense against the malarial virus. Rheumatism, dyspepsia and constipation are remedied by it.

A small jag goes a great way on a railroad train.—Pittsburg.

The best thing to do is this: when you're suffering from Sick or Bilious Headaches, Constipation, Indigestion, Bilious Attacks, or any derangement of the Liver, Stomach, or Bowels, get something that relieves promptly and cures permanently. Don't shock the system with the ordinary pills—get Dr. Pierce's Pleasant Pellets.

They're the smallest, for one thing (but that's a great thing), and the easiest to take. They're the best, for they work in Nature's own way—mildly and gently, but thoroughly and effectively. They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get. What more can you ask? But don't get something that the dealer says is "just as good." It may be better for him, but it's pretty certain to be worse for you.

"Keep in the Middle of the Road."

People's Party Medal!

Made of solid Aluminum, the size of a silver dollar, weighs about as much as a twenty five cent piece. Aluminum is stronger than iron and no heavier than wood. It is more valuable to humanity than gold or silver, the cost in bulk is no greater than copper and it is becoming cheaper from day to day. The best practical illustration of the fallacy of barter money, its "intrinsic value" is far greater than that of gold or silver, though their market value is higher. The reverse side of the medal contains the words: "Commemorative of the Founding of the People's Party May 15th and 26th, 1891, at Cincinnati, Ohio." It is sold for the purpose of raising campaign funds for the National Committee.

PRICE 50 CENTS.

Liberal discount to reform speakers and organizations.

It is expected that many speakers will be able to pay their way by the sale of this medal.

In ordering state where you want the medal attached to a pin to be worn as a badge or pin, to be carried in a pocket place.

Address all orders to the Secretary of the National Committee of the People's Party.

ROBERT SCHILLING,

MILWAUKEE, WIS.
